PRINCE CHARLIE STAYS OUT

Brother of Secretary Will Not Run for Office of Governor.

HANDS REACTIONARIES A FEW

Says Hitchcock Organ in Omaha Allowing Its Columns to Be Used for Detriment of the Democratic Party.

(From a Staff Correspondent.) LINCOLN, July 17.—(Special Telegram.)—Accusing reactionaries of trying to disrupt the democratic party and gain control of the state convention, endorsing the administration of President Wilson, but forgetting to mention Governor Morehead of the state administration, Charles W. Bryan this afternoon issued the following:

"I will not be a candidate for the democratic gubernatorial nomination in the coming primaries, as I do not believe my candidacy is necessary to give the progressive democrats of the state a candidate.

"In my judgment the democratic state and congressional tickets in this state can be elected this fall if no mistake is made in the state convention and the primary. Nebraska is a progressive state. The majority of the voters of Nebraska are in favor of progressive legislation, and they understand what the real meaning of the term is. The national democratic under the leadership of President Wilson has made a record that every real democrat is proud of, and a record that meets with the approval of a great many voters of all other parties.

Deplores Fight on Thompson.

"The effort which is being made by an element of the democratic party that has not been giving President Wilson the enthusiastic support to which he is entitled, to prevent the re-election of State Chairman Thompson and the election of a progressive secretary and state committee is unfortunate and is not likely to succeed.

"I have no doubt of the re-election of Chairman Thompson and of an organization that will work in harmony with him. In order for the party to maintain the confidence of the voters in its sincerity it is necessary to have the party led and officered by men who are not only in complete accord with President Wilson's efforts, but it is also necessary to select as candidates and to select as officers of the party organization men who typify what the president stands for and whose conduct of the campaign will be an assurance to the people that the high moral standard which the national administration has set will not be lowered.

"The predictions in some quarters that there would be a bitter contest in the democratic state convention I feel as Mark Twain once said about the reports of his death are exaggerated. The 'World-Herald' in its issue of the 15th contains three columns attack upon me and claims in the course that I am endeavoring to prevent the endorsement by the democratic state convention of Senator Hitchcock.

Hilton Pleads Guilty to Shooting Lowe

PLATTSBOROUGH, Neb., July 17.—(Special Telegram.)—Tony Hilton, aged 22 years, the negro who shot Fred D. Lowe of Nebraska in this city on July 4 and later in the day was arrested in Sarpy county by Chief of Police Briggs of South Omaha, was arraigned in the Cass county district court on the charge of shooting with intent to wound, which had been filed by County Attorney Calvin H. Taylor. He pleaded guilty to the charge and Judge James T. Hoxley sentenced Hilton to serve at hard labor in the state penitentiary an indeterminate term of from one to twenty years. Hilton and Lowe stated that whisky caused the shooting. Hilton said his mother lives in Kentucky and his father is dead.

LAUREL RUNAWAY BOY RETURNS TO HIS HOME

LAUREL, Neb., July 17.—(Special.)—Tension was relieved here today when it became known that Burdette Shively, the 13-year-old son of Bert Shively, a prosperous farmer near here, had returned to his home. The boy disappeared the night of the Fourth and as his integrity was unquestioned and he had no cause to leave home, much alarm was felt. One hundred men went out in automobiles; almost every farm house in the county was visited and the right-of-way of the Omaha railway was searched for miles. Finally the offer of a liberal reward resulted in the return of the boy from Gavvillia, S. D., where he was found at work in the harvest fields. He declined to give his reason for leaving, but says it had nothing to do with home or family matters.

Notes from Gage County.

BEATRICE, Neb., July 17.—(Special.)—A heavy wind and rainstorm swept through southern Gage county Wednesday evening, doing considerable damage to farm property. Southeast of Wynora eight windmills were blown down and a number of barns and outbuildings destroyed.

McAllister Tells His Views About Water Projects

(From a Staff Correspondent.) LINCOLN, July 17.—(Special.)—J. J. McAllister, a member of the special committee appointed by the legislature to look into the proposition of state water power development has made a report from a personal standpoint in which he favors a number of propositions he thinks the state ought to take up in connection with the development of the water powers of the state. The report is very long, but in a short way covers the following:

The constitution to be amended declaring ownership of all natural streams to be in the state forever conserved for the benefit of the people for all purposes.

The state to have monopoly on the sale of all energy generated on streams of the state.

Public utility commission with right to take over all power and supervise sale, should be created.

Declare rivers and flow therein riparian rights to the property of the state.

Give cities single or group right to generate power for industries and for heat, light and other purposes for their citizens.

Give cities right to issue bonds for acquisition of power sites and development thereof.

Counties should be given right to acquire and operate water power plants.

Another strain of legislation is proposed which applies to private concerns. These recommendations are:

No right shall be leased for a period of more than fifty years. Right of reversion at end of that time.

Water power companies to be declared public utilities.

Reserve compensation for privileges, \$1 per horse power per year.

Value of all plants to be fully determined with filing of all construction expenses to be made with the railway commission.

No lease to be given to company not able to carry on development. Bond to state to be required. Lease is and to guarantee good faith of applicant.

No assignment of lease or power right till development completed, then only with consent of state.

Power to any person asking for it, on equal terms for equal service. Sale of power to be fair profit only.

No speculation allowed. Fixed time for completion of plants.

Combination to fix prices to mean forfeiture of rights.

No partial development allowed. No more than one grant to each company. Will act for all requirements complied with.

Plans for all work filed with railway commission.

No plant to be owned by or to form part of any trust, or be the subject of a conspiracy to restrict opt of electrical energy.

All stock and bond data and full information on company to be filed with the board of irrigation.

All books of companies to be open to official and public inspection.

Schedule of rates to receive approval of commission before becoming effective.

During life of lease shall keep all works in good condition.

Upon termination of lease all rights and interest in state the latter to pay reasonable price for same to the company which held the lease.

BOND COMPANIES SUING OVER TREASURER'S BOND

(From a Staff Correspondent.) LINCOLN, July 17.—(Special.)—The National Fidelity and Casualty company is appealing from a judgment secured in the district court of Douglas county by the Lion Bonding company in the sum of \$25 for premium due as one of the sureties on the bond of the state treasurer of Nebraska.

The state treasurer is required to give a bond in the sum of \$1,000,000 and it has been the custom for the bond to be given to one company who in turn divides the amount up with other companies so that the entire amount will not fall upon one company. It is set out in the case that the Lion Bonding company was one of the companies which held one-twentieth of the amount of the bond and the premium for such share was \$25, which the company has refused to pay over the Lion company which sues for its share of the premium paid by the state for the bond of the treasurer.
